TAJIMA DG | BY PULSE

creative personalization

Unleash your creativity with **Tajima DG16 by Pulse!** DG16 offers more ways to creatively personalize products than ever before. Make any design uniquely your own with new fonts, features, stitch types and editing tools.

Why DG16?

- Over 170 high quality fonts with closest point connection.
- Merge embroidery designs with advanced lettering and monogramming.
- Open and save to all popular embroidery formats.
- Direct connection to Tajima, Barudan, Brother, SWF and ZSK embroidery machines.
- Exclusive support for Tajima LAN-enabled embroidery machines.
- Customized settings recipes for sewing on specific fabrics.
- Increase production efficiency with barcoding and Design Spooler.
- Real time machine status and production reporting.

New features

- **One Click Conversion**
Right click icons to instantly convert segments to different stitch types.
- **Rounded Corners**
Click and drag any number of corners to make them rounded.
- **Create Boundary**
Outline shapes and convert the outline into any type of segment.
- **Drag Anchor Path**
Quickly digitize logos and letters by dragging paths
- **Sequin Paintbrush**
Click and drag across an area of sequins to change the color or style.
- **New Fonts**
Fifteen new standard fonts available to all levels.
- **Personalization Toolbar**
ColorIT, WordIT and Emoji tools for creative and unique designs.
- **Combine and Join**
Digitize a portion of a shape and easily mirror it into one closed segment.

Speed Up Your Digitizing

One-click conversion of segments, a new flyout toolbar and an interactive design ribbon to clean up your design area.

Laser/Sequin/Chenille/Rhinestone

Create exciting multi-media designs using a wide array of techniques including the new Sequin Paintbrush.

Font Selection

Over 170 expertly digitized fonts included as standard with hundreds more available for purchase.

Import Vector Graphics

Import vector artwork from Adobe Illustrator® and CorelDRAW® directly into DG16 and start digitizing.

Exclusive Tajima Networking

Support for Tajima LAN-enabled machines, sending designs and collecting machine performance data.

PulseCloud

Store and up to 100,000 designs and check your machine status with PulseCloud. Use the new online designer to create original designs or edit existing ones.
